PRICE 5 CENTS.

VEEKLY ESTABLISHED 1822 } VOL. LII--NO. 299.

INDIANAPOLIS, SUNDAY MORNING, OCTOBER 26, 1902.

CARROLL D. WRIGHT NAMED BY PRESIDENT ROOSEVELT.

Commissioner of Labor Made the Seventh Member of the Anthracite Strike Commission.

ALSO WILL ACT AS RECORDER

HIS APPOINTMENT SATISFACTORY TO BAER AND MITCHELL.

Selection Made on the Request of Judge George Gray, Chairman of the Commission.

CONFERENCE MONDAY NEXT

AT WHICH PLANS FOR THE HEAR-INGS WILL BE AGREED ON.

Mine Owners and President Mitchell to Be Present-Conditions in the Mining Regions.

WASHINGTON, Oct. 25 .- At the request of the anthracite coal strike commission and with the assent of both optrators and miners, President Roosevelt has appointed Carroll D. Wright, recorder of the commission, a member of that body. The correspondence leading up to the appointment of Mr. Wright was made public at the temporary White House to-day. The following self-explanatory telegram was sent yesterday:

"Washington, Oct. 24, 1902. "Mr. George F. Baer, president Philadelphia & Reading Coal and Iron Company,

Philadelphia, Pa. "As chairman of the anthracite coal commission, recently appointed, I am instructed to inquire whether it would be agreeable that we should request the President that Mr. Carroll D. Wright, who was made recorder of said commission, be appointed a member thereof. A like communication will be addressed to the representative of the miners. Will you be good enough to answer as representing the coal operators parties to the agreement? GEORGE GRAY, Chairman."

A telegram identical with this was sent to Mr. John Mitchell, president of the United Mine Workers of America at Wilkesbarre. To these inquiries the following responses were received by telegraph:

Philadelphia, Oct. 24. "I am authorized to say that Mr. Wright's addition to the commission will be entirely agreeable to the gentlemen who signed the GEORGE F. BAER."

Wilkesbarre, Pa., Oct. 24. "Telegram received. Replying thereto will say that it is perfectly agreeable to me that Mr. Carroll D. Wright be added to

JOHN MITCHELL." The completed correspondence then was laid before President Roosevelt, with the unanimous request that Mr. Wright be added to the commission as a full member. In accordance with the request the President immediately designated Mr. Wright a member of the commission, coupling his announcement with a statement that Mr. Wright would continue to perform his duty as recorder. Mr. Wright called on the President to-day, accompanied by Assistant Recorder Edward A. Mosely, and form-

ally accepted the appointment. Recorder Wright has received replies from most of the coal-mine owners who are parties to the controversy, indicating their acceptance of the invitation of the commission to attend the conference to be held on Monday next for the purpose of agreeing upon plans for the hearings to be given by the commission, and also a reply from Mr. Mitchell, saying that he would be repre-sented at the meeting. No notification was sent to any other representative of the strikers, because of the fact that the miners' convention empowered him to represent them before the commission. It is not known whether he will be accompanied by the district presidents, but the members of the commission will not be disappointed or displeased if he should be. Invitations were sent to all the operators who signed the proposition for a commission to arbitrate the differences.

Carroll D. Wright to-night, speaking of Monday, said that the members are of opinion that the sessions should be held in the vicinity of the evidence, and that an effort would be made to get both parties to the controversy to agree upon one convenient place where the commission shall sit and hear evidence.

NEARLY 100,000 AT WORK.

Many Men and Boys Given Employment-More Collieries Opened.

WILKESBARRE, Pa., Oct. 25 .- To-day output is 120,000 tons. The increase came mostly from collieries that have been in operation since Thursday and which are in good condition now. The largest output came from the mines of the Delaware, Lackawanna & Western and the Delaware hour, while the British were advancing in

Reports received show that fourteen additional mines were started up to-day. Four of these were in the Schuylkill region and the rest in the Lackawanna and Wyoming regions. The number of men and boys at work to-day is placed at 91,000. The Lehigh Valley Coal Company has all of its collieries in the Wyoming region in operation, with the exception of one. The companies' outputs of coal was 60 per cent. of the normal. Nearly all the steam men formerly employed by this company, it is

said, are at work. The Lehigh and Wilkesbarre Company sent considerable coal to market to-day. By Monday it expects to have all of its mines, with the exception of the Stantion, at work. The Susquehanna Company also made good headway to-day. By Monday it is believed 90 per cent. of the mines will be in operation, All the collieries where water has not accumulated in large quantities are now in shape to receive the full working force. Nearly all of the coal and iron policemen who were hired by the coal compa-

nies when the strike began have been paid off and discharged.

Voted to Remain on Strike. HAZLETON, Pa., Oct. 25 .- The local of the United Mine Workers, composed of the employes of A. Pardee & Co., at Cranbury and Crystal Ridge, voted to-day to remain on strike until the company withdraws its requirement that all the men before returning to work must sign an agreement not to interfere in any way with the nonunion hands. The employes of the Lehigh & Wilkes-

barre Coal Company decided to return to work Monday in the expectation that the company will reinstate the steam men for whom no places could be found when they reported on Wednesday. The situation at the Coxe and the Markle mines remains unchanged, despite the efforts of the district officers of the mine workers to effect a settlement.

Output of Coal Increasing. WILKESBARRE, Pa., Oct. 25 .- A number of additional collieries in the anthracite coal region started up to-day and those

that were put in operation on Thursday are gradually increasing their output. The Delaware, Lackawanna & Western Com-pany expects to close the day with 28,000 tons of coal on the cars.

JOY AT THE "SOOS."

Water Turned Into the New Power

Canal-Street Pageant.

SAULT STE. MARIE, Mich., Oct. 25 .-Water was turned into the new power canal of the Consolidated Lake Superior Company this morning and at 12 o'clock Miss Helen Clergue, sister of Francis H. Clergue, organizer and general manager of the company, turned a jeweled switch that started the wheels of the big power house. Perfect bedlam broke loose in the two "Soos." Miss Clergue started the machinery and set the wheels in the power house whirring for the first time. The first current generated was used to run one of the company's new electric street cars. A civic and military parade marched through the streets during the morning that exceeded anything ever seen in upper Michigan. Over 10,000 men were in line. This afternoon there was an industrial parade which showed the different products of the Clergue institutions in the various stages from raw material to finished prod-ucts. To-night the three days' celebration ended with a banquet in the armory.

THREE PERSONS INJURED.

Another Accident in the New York Rapid Transit Subway.

NEW YORK, Oct. 25.-Three persons were badly injured and a great many others narrowly escaped death in an explosion of dynamite at Park avenue and Forty-first avenue, where work is in progress in connection with the building of a station on the rapid-transit subway. A large number of persons were standing on the wooden sidewalk above watching the men at work, when suddenly a loud explosion was heard, and tons of rocks of all sizes were projected into the air. Most of the serious accidents in connection with the subway work have occurred in that section of the city.

GRECIAN MISSION DECLINED BY HENRY L. WILSON.

Preferred to Retain the Chilean Post, Which Pays \$10,000 a Year-Notes About Indianians.

Special to the Indianapolis Journal. WASHINGTON, Oct. 25 .- Henry L. Wilson, United States minister to Chile, has declined the appointment of United States minister to Greece, and will be allowed to retain his present office. The mission to Chile pays \$10,000 per annum and that to Greece \$6,500 per annum. Mr. Wilson is now on his way to Santiago after a short leave of absence spent in this country. Mr. Wilson is from the State of Washington, but formerly was from Indiana. He asked to be changed from Chile, but refused the

change on account of the difference in pay Henry E. Long, a native of Indiana, who is boarding at 321 Pennsylvania avenue, Northwest, was found unconscious in his room from the effects of gas, about 7 o'clock this morning. Long retired about 12 o'clock last night, and, it is thought, attempted to blow out the gas. He was taken to the Emergency Hospital, where the surgeon soon revived him.

Commissioner William Dudley Foulke has been away from his desk for several days on account of being ill. N. L. Chew, deputy auditor of the Post office Department, who talks and walks and acts like an Indianian, started with a full supply of patriotism for Noblesville tonight to join his political friends in his

Nathaniel G. Van Doran, stenographer in Mr. Tracewell's office, is accompanying the secretary of the treasury on his Western tour, reporting the latter's B. H. Fenton, law clerk of the Postoffice

Department, has responded to the call of the spirit of his State, and has started for his home place at Hammond to vote. Samuel K. Dayne, of the Postoffice Department, will cast his vote in Benton county, Indiana, where he went to-night.

DETAILS OF THE RECENT SEVERE FIGHTING IN SOMALILAND.

Splendid Example Set by White Offi-Disaster-The Casualties.

ADEN, Araba, Oct. 25 .- Details of the does not know of the shooting. Fox was fighting in Somaliland Oct. 6 between the taken to jail to await trial. Orr probably British expeditionary force and the followers of the Mad Mullah show that a more serious disaster was averted only by the splendid example of the few white officers. As it was, the British force lost a Maxim saw a further increase of coal production | gun and seventy men killed, while sixtyin the anthracite region. The estimated two of their enemies, dead, were counted a murderous assault upon Miss Ida Welclose to the firing line.

> their zareba (foreified camp) for Mudug. Oct. 6, the Mullah's forces were reported about a mile ahead, and within half an single file through the dense jungle, the enemy charged the British right flank. The Mullah's troops were met with such a severe fire that they swung round towards the British center and left. Meanwhile the and, although somewhat alarmed, she contransport got mixed up with the firing line, which was thrown into confusion, and a Maxim was rushed and captured, as were many camels. Major Phillips was shot while gallantly attempting to rally his men and Lieutenant Everett was wounded while attending Major Phillips. The disorder spread to the gun teams, which were driven back. Captain Angus was killed while serving a gun. Colonel Cobbe, with a single Somali sergeant, continued serving a Maxim, and then Colonel Swaine (the British commander in Somaliland and commander of the expedition) led a splendid charge, checked the Mullah's hordes and recaptured some of the transport, but he was unable to recover the Maxim. The British then formed a zareba and sent out parties to collect the scattered transport. The enemy later tried to get away with the captured camels, but Colonel Swayne took out three companies of troops and after a sharp fight recaptured the majority of them and picked up seventy rifles.

Bulgarians Defeated.

BELGRADE, Servia, Oct. 24.-A daily paper here reports that severe fighting has taken place between Turks and Bulgarians chiefly on the Uskub frontier. The most serious encounter occurred Oct. 18, when a Turkish battalion from Salonica and the strongest Bulgarian force in the country were engaged, with the result that sixty Bulgarians were killed and thirty were captured. The chief of the Bulgarian band, Danow, was severely wounded.

The Bankers' Trust Company.

ST. LOUIS, Mo., Oct. 25 .- The announcement has been made by the organization shot just below the heart and will probcommittee of the Bankers' Trust Company ably die. that organization has been effected along entirely new lines, in that the directorate will be officered by a number of the leading financiers of the country, although the company will be a St. Louis concern. This will se done for the purpose of affording the company the best possible geographical

GREAT EXPECTATIONS.

CUTTING AFFRAY AT NEW CASTLE FOLLOWED BY A SHOOTING.

Frank Orr Cuts Eli Fox, and the Latter Shoots and Wounds His Opponent and Neighbor.

SHERWELL IS ACQUITTED

OUND NOT GUILTY OF THE MURDER OF MRS. GEORGIA RAILEY.

Probable Murder Near Paoli-Work on Important Traction Surveys-Elwood Man Guards His Gas.

Special to the Indianapolis Journal. NEW CASTLE, Ind., Oct. 25 .- As the result of a quarrel this afternoon Frank Orr cut Eli Fox seriously about the face with a knife and the former was shot in the right side and head by the latter with a shotgun at his home in Lockwood and lies in a dangerous condition, with his lungs

full of shot. The quarrel was the outcome of a longstanding feud between the families, which was started by the respective children and was taken up by the parents. After the first fight, in which Fox was cut and which started at the shovel factory, both went to their homes, which stand side by side, and procured their shotguns. When Fox fired Orr dropped his gun and staggered to the house. Medical assistance was called and the officers sent for. .

Orr's wife is visiting at Pendleton and

Bloomington Woman Clubbed.

Special to the Indianapolis Journal. BLOOMINGTON, Ind., Oct. 25 .- There is much excitement in the city to-day over mer, which occurred late last night, and Shortly after the British expedition left | thus far there has been no dew to the assailant. Miss Weimer is employed as an operator in the telephone exchange in this city and lives in the extreme south part of town. She is off duty at 8:15, and last night started out at once for her home. Just before she entered the old college campus she heard some one behind her. tinued homeward. When about half way through the campus she was struck to the ground, and a club found near by is the evidence of how she was assaulted. Miss Weimer evidently lay in an unconscious condition for some time, and about an hour later appeared at the home of Mrs. Harris. on South Walnut street, a quarter of a mile away, and, knocking at the door, begged for assistance, though she was unable to tell her name or give any details. A horrible cut on her head was bleeding profusely and her feet were wet from crossing a small branch.

The alarm was at once given to the police and Miss Weimer was taken to her home, where she has since been in a critical condition. She talks sometimes of the assault, but knows no details other than as here given. So far as known no further attack was made on her, and as she carried no money the police are at a loss to know the cause for the assault. She has been employed at the telephone exchange for some time, and had always gone home about the same hour. There could have been no mistake as to the attack, as an electric light was near by. The entire police force is at work on the case, but no clew of any importance has been secured.

Fatal Shooting at a Social.

Special to the Indianapolis Journal. PAOLI, Ind., Oct. 25.-William Bledsoe shot and probably fatally injured Everitt Smith last night. The young men were attending a box social at one of the school houses in French Lick township. In a general quarrel among some boys Bledsoe, who was drunk, shot Smith. Smith was

Despondent Laborer Kills Himself. Special to the Indianapolis Journal. PETERSBURG, Ind., Oct. 25 .- Joseph Vincent, single, a day laborer, in a fit of

PERSONAL PROPERTY OF THE PERSON OF THE PERSO	

MERCHANTS MAKING SINCERE EF-FORTS TO ABATE THE NUISANCE.

Letters to Inspector Bartel Enumerate Difficulties, but Express Sympathy with the Ordinance.

MANY DEVICES BEING TRIED

HOW SOME PLANTS ARE SOLVING THE SMOKE PROBLEM.

Mayor and Inspector Discuss Situation from the Standpoint of Personal Investigation.

Replies received by Building Inspector Bartel to his circular calling attention to the ordinance against the emission of smoke from furnace chimneys, show that the whole city is interested in the question of smoke prevention and that merchants and manufacturers are active in trying to diminish the quantity of smoke, if not to wholly eliminate it. These replies indicate the difficulties that beset all, and while few show that success has been achieved, they indicate that public spirit is in sympathy with the ordinance and the effort of

the administration to enforce it. Building Inspector Bartel says the abate- spoke highly of it. The Germans, how- striking contrast with the general lack of ment of the smoke nuisance will gradually ever, do not think it shapted to their coun- color pervading the pageant be completed. He says it is the policy to require strict observance of the ordinance, but that prosecutions have not been instituted where offenders were making serious and prompt efforts to obey. Some of the replies received by the inspector asked him to recommend a consumer. Mr. Bartel says he cannot do this largely because he does not know of one that has stood the test to the point of official indorsement. "There are a number of devices," he said. "any one of which goes a long way in preventing smoke. Some of them are being used successfully and others unsuccessfully. There are individual differences in furnaces and boilers which when attached to these devices produce more or less satisfactory results; but I find that the producers of smoke are energetically seeking the best method of relief to fit their individual cases. and the amount of money that has been spent in experiments would make a small and the best soldiers. fortune.

"Mechanical stoking is not available for low-power plants. In the large plants it is a satisfactory method of firing, and a number of big furnaces produce comparatively no smoke. In the small plants such success has not been had to any extent. The conditions this winter will be different from former periods because, I imagine, there will be little or no hard coal for such uses and soft coal will be used almost ex-

THE MAYOR'S STATEMENT. Mayor Bookwalter says the administration will require obedience to the ordinance. "I recognize," said the mayor, "that Indianapolis citizens are spending large sums in trying to get practical devices. There o are many things that make practical worko ing difficult that do not appear to the cas-0 | ual observer. A feature that is not always o regarded is the down-town conditions. where buildings are so constructed that they will not admit of the changes necessary for the most practical devices. Too many of the plants are small and stokers other than hand are not available. An excellent illustration of hand and machine stoking may be observed at the power station of the Indianapolis Street-railway Company. One set of boilers, four in number, is provided with the Murphy stoker. Another battery of eight boilers is not so equipped. The two smokestacks are side by side. From one there pours a dense cloud of smoke; from the other a steam-like 15 vapor that disappears not far from the top of the stack. The hominy mills is another evidence of the success of mechanical stok-"I am going to ask a number of mer-

chants who are now finding difficulty in reconciling themselves to devices that are offered for small plants to inspect the device used at the sewage pumping station of Chicago at Englewood. I visited it recently The device has been in use for seventeen The device has been in use for seventeen months and has given complete satisfaction. There is a perceptible saving in fuel. restraining Cook county from selling the tion none appeal more strongly to my interest and sympathy than those directly touching on the welfare of the poorer

It can, I am told, be put on any furnace for \$250. The device is simple. The smoke is caught by a blower and returned through pipes to the fire box. These pipes enter at an angle of about 45 degrees and meet in front of a brick wall, which rises above the fire box about a foot are a half and about the same distance below the boilers. A second wall is behind this, coming from the boilers to within a foot and a half of the

bottom of the fire box. The two pipes discharge their smoke in front of this first wall and produce a constant eddy which is consumed. I had the expineer shut off the blower and in twelves seconds a heavy black smoke was issuing from the stack. He restored it to use and in eight seconds the smoke had disappeaded FOR TOMLINGON HALL. The mayor says he vell have the Board

used and no smoke restited, but this year he does not expect to beable to get anthracite. He says he will acommend the Enfor use in their building at Massachusetts avenue and Pennsylvan a street.

The early completion of the Merchants' heat and light plant we expected to bring abatement of smoke in a large degree, but there is doubt now whether it will be comwho have not prepared to abate the nuisance of their own small plants were depending on this company, which had expected to be giving struce Dec. 15. As most of the smoke producers in the business district expect to be elve service from this company, it means that two-thirds of the stacks now emitting smoke will be the stacks now emitting smoke will be abandoned. The other that make a nuisance are connected with manufacturing plants and will have to be equipped with smoke preventives. The letters received by Building Inspector

of Public Works investigate the most practical appliance to be 1st in use at Tom-

linson Hall. Last winger hard coal was

Bartel are themselves the best explanation of the efforts of the biginess men to solve the smoke problem. They are as follows:
Indianapolis Board of Trade—The board
has elevated its smolestack twenty-one feet and has contracted for a higher grade of coal, represented an smokeless, costing twice as much as the fiel formerly used. Commercial Club-It is putting in new grates and remodeling its furnaces so as (CONTINUED ON FAGE 3, COL. 1.)

RETURN OF ARMY OFFICERS FROM

THE GERMAN MANEUVERS.

Impressions of the Adjutant General

-Emperor William's Army the

Best in the World.

NEW YORK, Oct. 25 .- Major Generals H. C. Corbin and Sangiel B. M. Young, of the United States army, who went abroad to attend the German army maneuvers, on the invitation of Enperor William, returned to-day on the steamship Philadelphia from Southampton. Speaking of their

trip, General Corbin 12id:

"We attended the maneuvers of the German army and visited England, where we were cordially received. We wore the new try, while in England they thought favorably of it. I met denerals Roberts and Kitchener, with whom I was much impressed. Kitchener presents a fine soldierly appearance. He is rather reticent until acquainted. I think le is an able soldier. In England it impressed me that while they keep track of Turope and know its ney know comparahistory and habits, tively little about us! However, they are learning more about us now. General Leonard Wood will steamer leaving Nov. General Corbin expressed his gratification over the cordialist of the reception of the American generals in England. Lord Roberts, he said, was coming here next September, and would "take in the country from New York to Sin Francisco. General Corbin har this to say of Em-

peror William: "He is wonderfully well odised, gracious and actful, and yet very forceful. The Germany army is the best in the world," added the general, "but the general. there is a difference b tween the best army It goes without saying that the America soldier is the best." asked whether, in General Corbin wa his view, Congress was to blame for what was lacking in the American army. To this he replied: "Colgress is very kindly disposed, but there are so many persons both in and out of it hat have views, that we never seem to as see on a plan for re-organization. The plan is always a mi-nority report. In Germany there is no interference with the s'my."

General Corbin speke of the wonderful spectacle which the German war maneuvers presented, and said that the whole had been a most enjoyable one. He

Incidents of the Procession-King Edward's Speech at Trafalgar Square -Boers Among Spectators.

LONDON, Oct. 25 .- Much excitement followed the royal procession to-day and for a time it was feared the lives of the King and Queen were periled. Fire broke out in the Guildhall soon after their Majesties left the structure. Many people feared the King and Queen were still there and there was a rush toward the building. Edward and Alexandra, however, had left the hall and were returning to the palace when the fire alarm was sent in. Little damage was done.

King Edward and Queen Alexandra proceeded on their royal progress toward the city shortly after noon to-day in some-CINCINNATI, Oct. 5.-The preliminary what dull weather. The roofs of houses near the palace and other points of vantage giving sion offices at Indiana olis and Cincinnati, a view of the picturesque panorama in the combine including the street railways Green Park and the historic Mall were well filled with spectators whose cheering announced to the less privileged public the starting of the state carriage with their Majesties. The procession formed up outside the gate and had already moved off. when the first carriage, containing royal personages and members of the household, emerged therefrom. The veteran Duke of Cambridge, who was in a carriage with Princess Victoria, came in for slight cheering, but Lord Roberts and his staff

passed almost unnoticed. KING AND QUEEN LOOKED WELL. There was a somewhat tedious interval before the appearance of their Majesties, who drew forth the first real cheers of the day as they passed through the rows of blue jackets from the first-class cruiser Terrible, lining either side of the main entrance to the palace. The King wore a field marshal's uniform with the cloak thrown back, showing his decorations. The Queen had on a straw-colored toque and a fur collarette and cloak. Both the King and Queen looked extremely well and continuously bowed their acknowledgements of the warm welcome extended to them. The King's escort of life guards, equerries, etc., were about the only detachment of uniform at the mane vers, and the press the procession not wearing cloaks, and

> Partly in consequence of the length of the route there was nowhere a great crush of people, with the exception of open spaces like Trafalgar square, where the London County Council presented the King with an address of welcome, and where the Boer generals, Botha, Delarey and De Wet, were prominent among the spectators, and at the city boundary, Temple Bar, where the lord mayor, sheriffs and other city officials welcomed his Majesty and presented him with the city's sword. At the Mansion House most of the pro-

> cession stopped, their Majesties from there being accompanied only by the sovereign's escort and the Prince of Wales, the Duke of Connaught and other princes, equerries and aids to the Gulldhall, where they arrived without any extraordinary incident. Owing to the King's carriage being the last some confusion resulted at the entrance of the Guildhall in an endeavor to empty the carriages quickly and avoid keeping his Majesty waiting. Several of the princesses were rather unceremoniously deposited on the sidewalk, where they tried to throw their wraps in the carriages, which were being hustled off down a narrow street, and a confused mass of policemen, princesses, ladies-in-waiting and such generals as had time to dismount gathered under the canopies at the en-

When the King arrived he looked tired and stepped heavily from his carriage. The Queen threw off the wrap which covered her simple straw-colored dress, trimmed with gold. Her Majesty, who looked marvelously youthful and well, accepted a bouquet from the lady mayoress, and the King shook hands with her. The procession then started off down a long, picturesque row of "beef eaters," and the equerries and generals straggled in behind Among the last was the Prince of Wales, who was rather long in dismounting. He came running up, scarcely recognized, and nearly shut out by the cordon of policemen, who gathered about the doors. In the great hall the several hundred persons waiting about the luncheon tables cheered as the King came in. His Majesty accepted the corporation's address, and then the members of the royal family sat down and the luncheon commenced. Among those present were Ambassador Choate and

General Wood. THE KING'S SPEECH. The most interesting feature of the royal progress up to this point was the King's reply to the address of the London County Council on Trafalgar square. The Boer generals occupied prominent seats in the cinity. He said:

"It gives much pleasure, both to myforgeries made it appear that approximate- self and the Queen, to receive in person by \$27,000 taxes due on the Masonic Temple the loyal and dutiful address of the center had been paid. The forgeries were discov- of municipal authority on the occasion of ered and the conspiracy disclosed. It developed to-day during the discussion of the verdict of guilty against the two men our people on our coronation.
